Docket No. 98N-1265 218
Food and Drug Administration

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I spent 10yrs on prescribed pharmaceutical
hormones with a poor quality of life. It
wasnt until I began to use a compounded,
unique to me, prescription that my health
improved. If this is adopted I would
have to go back to the life I had before,
which I would rate with a deterioration
of my health. I have no compounding
pharmacy in my state I could
get it from.
